

HIPAA Risk Analysis WorkShop™

A Complete and Proven OCR-Quality Solution

Conducting a HIPAA risk analysis that effectively addresses the protection of patient data, while meeting regulatory requirements and helping you take steps to mitigate potential legal, financial and reputational crises is no small task.

Let Clearwater's team of world-class industry experts guide you through the Risk Analysis process and equip your organization to be as self-sufficient as you want to be.

Key WorkShop™ Process Phases

Trusted by hundreds of hospitals and healthcare systems.

Health Care Information Privacy, Security, Compliance and Risk Management Solutions from Clearwater Compliance LLC have earned the exclusive endorsement of the American Hospital Association.

90% OF OCR ENFORCEMENT ACTIONS REGARDING ePHI SHOWED FAILURE TO CONDUCT A THOROUGH & ACCURATE RISK ANALYSIS

Clearwater's Risk Analysis and Risk Management software and methodology are strictly based on OCR/HHS Guidance and NIST Guidelines

The Clearwater HIPAA Risk Analysis WorkShop™ includes:

- ✓ Professional consulting services to complete the risk analysis process, end-to-end, including fully populating your software instance
- ✓ 3-year subscription to Clearwater's highly acclaimed and proprietary IRM|Analysis™ solution, designed by subject matter experts
- ✓ Risk Analysis reports and executive dashboards with comprehensive Findings, Observations and Recommendations to help you prioritize your next steps
- ✓ In-depth, concierge-level training and ongoing technical support for your staff on a sustainable and repeatable risk analysis process and the use of the Clearwater IRM|Analysis™ to perform future periodic risk analyses and to guide and document your risk management activities

“Performing the Risk Analysis is a daunting task each year. Clearwater provides the step-by-step workflow, detailed help and assistance back to NIST and HIPAA references that allow for a clear and defined process.”

Mark Rooker, Director Information Systems, Susan B Allen Memorial Hospital
