

**340B. Simplified.®**

Powering Compliance & Savings

## Simplifying Your Pharmacy's Supply Chain

### 340B Split-Billing Software

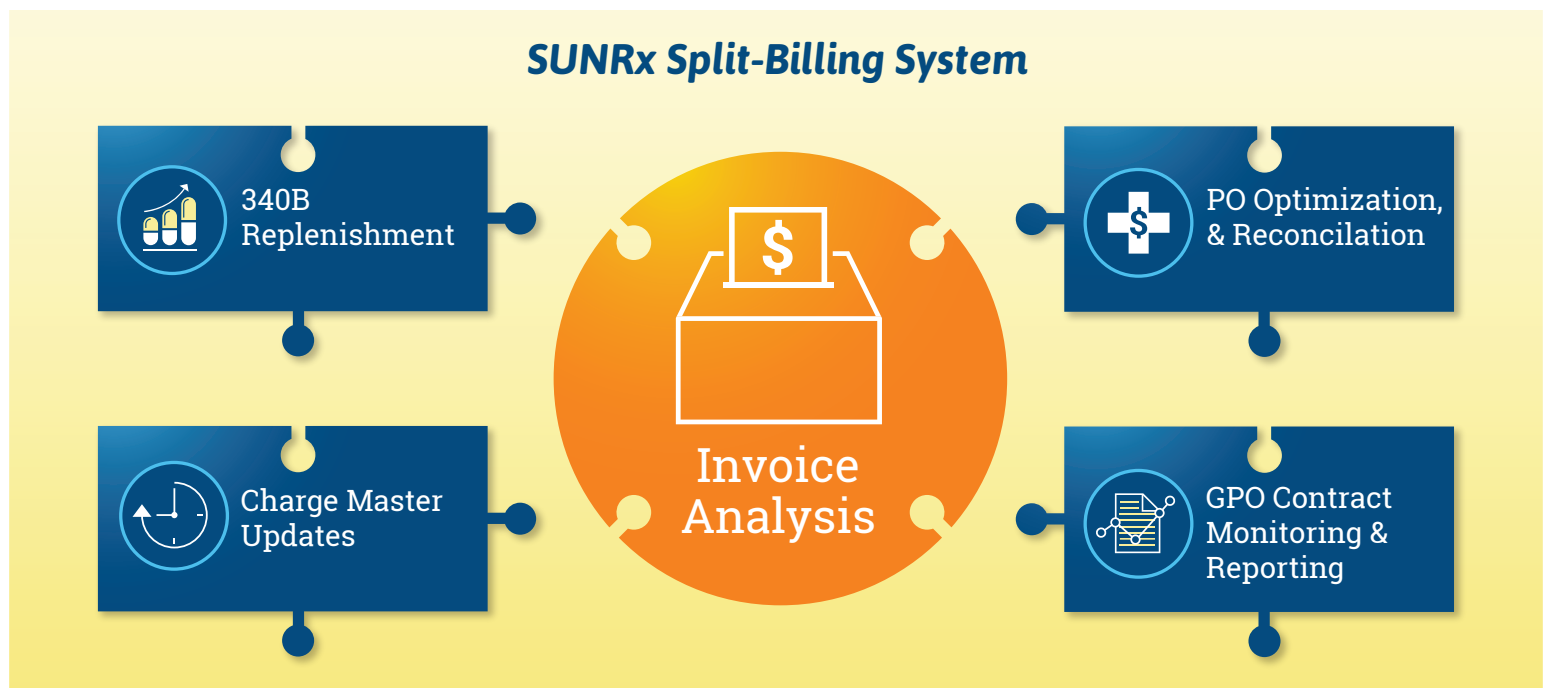

Virtual inventory software system that enables covered entities to take advantage of 340B contract pricing:

- Fully Customized Web-Based Software
- Wholesaler and EMR independent
- Turn key implementation averages less than 30 days
- Creates split, replenishment, or alternate supplier purchase orders and credits/rebills
- Verifies accuracy of price and quantity delivered

### Invoice Analysis

A real-time solution that identifies, reports, and ensures pricing accuracy:

- Works with all wholesalers and contracts
- Manages contract discrepancy resolution
- Increases contract compliance and savings
- Identifies manufacturer overcharges
- Verifies manufacturer 340B pricing for covered entities
- Increases contract compliance
